Why do you want to be on City Council? To help Albion the town I was born in, raised in and where so many individuals have shown their love and support for one another. To pray, to seek God for wisdom and guidance. Listen, be humble, and serve precinct 3 and the other precinct leaders. To stand for what's right and help to promote change within Albion City Council and our City as we stand together in unity believing change begins in us! To bring civility back to city hall and be able to come to a consensus on what's best for our city. To help grow small business, support entrepreneurs, clean contaminated sites, strengthen after school opportunities and improve our Recreation Department, and help take care of our senior citizens living. Remembering we are better together as we walk by Faith and not by sight! Hebrews 11:1
